Re: LS-509

OGC Has

MEMORANDUM FOR MR. HOUSTON

30 April 1951

SUBJECT: Special Processing of Retirement Records

Attached is a suggested regulation covering this subject, which is in the form suggested by the Advisor for Management in his memorandum of 24 April 1951. However, his wording has not been followed completely since it contains the misconception that the security hazard arises from the method of forwarding the Form 2806 to the Commission. The substantive and procedural aspects are all included in the one paragraph since Management advises that they are not yet ready to publish a procedural annex to the CFR's.
